

SR003_7: Failed Bank Report

InBank

**15533 South Cicero Avenue
Oak Forest, IL 60452**

(6/25/1970 – 9/4/2009)

Report Objective

This report has **two** objectives, using the bank's **data***:

1. To examine the bank finances in the quarters prior to its failure.
2. To analyze the bank finances using our Key Performance Indicator (KPI) scoring approach to determine if the bank's failure is something we could have predicted.

*Data source: FDIC and company filings.

* All internal news are written in blue color.

Report Summary – *Surprise?*

Based on the methods with which we analyzed InBank, its failure was ***not a surprise.***

Here are the indications that InBank should fail:

- 1) **InBank's R/A ratio had been much greater than the average of banks in the same concentration hierarchy from quarter one of 2007 until failure.**
- 2) **The bank had a mounting volume of delinquent assets in the quarters before its failure.**
- 3) **InBank's A/L ratio dropped significantly in the first quarter of 2009 to 99.36% and to 99.44% in the quarter before it failed, meaning it was no longer able to meet its obligations.**
- 4) **InBank had a bankability composite score of -21.18 the quarter before it failed, indicating the bank's very poor overall financial health and likelihood to fail.**
